## Sparks / Charged Particles

An update from an electric trio, whose last CD was popular among the few, most sophisticated listeners.

There is no indication of recording dates on this newly released CD, but it has been several years since their last one in 1993. On the last disk, they included three pieces by Chick Corea, showing the strong influence of his Elektric Band.

This new CD consists of all original pieces by the three members, Hutslar, Rak, and Krosnick. You cannot miss the Latin, progressive tone. The dynamic sound will capture the interest of people who grew up with rock 'n roll.

The time is coming for this trio with strong technique to be recognized by more people.
